Reduce, reuse, recycle
Environment is all of us and
what we have
Cans and tins must be
recycled
You know how to do it,
right?
Change of the future is in
our might
Loving the nature day and
night
Inspiring others to save our
kind
Not gonna lie, it's a tough
road in sight
Going on because it's our
fight.

Everyone should pick up
trash

Nature is a beautiful place
Valuing nature will help us
understand life and its
surroundings

If people help nature, it will
be better for everyone

Recycling will save the
world

Only humans can save the
world

Never use water more than
it is needed

Mother nature is dying

Everybody should plant a
tree

No one should ignore the
environment

Think before you trash,
recycle
